

**Discrete Mathematics**  
**Volume 230, Numbers 1–3, 6 March 2001**

**Contents**

**Dedication**

- A.M. Hobbs and H.-J. Lai* 1

**Preface**

- A.M. Hobbs, H.-J. Lai and N. Robertson*  
Paul Catlin 1948–1995 3

**Contributions**

- E.M. Palmer*  
On the spanning tree packing number of a graph: a survey 13
- H. Fleischner*  
(Some of) the many uses of Eulerian graphs in graph theory (plus some applications) 23
- H. Harborth*  
Eulerian straight ahead cycles in drawings of complete bipartite graphs 45
- A. Lee, G. Révész, J. Szigeti and Z. Tuza*  
Capelli polynomials, almost-permutation matrices and sparse Eulerian graphs 49
- H.-J. Lai*  
Eulerian subgraphs containing given edges 63
- P.A. Catlin, A.M. Hobbs and H.-J. Lai*  
Graph family operations 71
- R.J. Gould*  
Results on degrees and the structure of 2-factors 99
- X. Cai and W.E. Shreve*  
Pancyclicity mod  $k$  of claw-free graphs and  $K_{1,4}$ -free graphs 113
- L. Cai, D. Corneil and A. Proskurowski*  
Stable 2-pairs and  $(X, Y)$ -intersection graphs 119
- Z.-H. Chen, H.-J. Lai and H. Lai*  
Nowhere zero flows in line graphs 133
- C.-Q. Zhang*  
On strong 1-factors and Hamilton weights of cubic graphs 143

<i>A. Kelmans</i> On graph planarity and semi-duality	149
<i>A. Kelmans</i> On Homotopy of connected graphs having the same degree function	167
<i>R. Govindan and S. Ramachandramurthi</i> A weak immersion relation on graphs and its applications	189
<i>N. Robertson and X. Zha</i> Closed 2-cell embeddings of graphs with no $V_8$ -minors	207
<i>M.J. Dinneen, K. Cattell and M.R. Fellows</i> Forbidden minors to graphs with small feedback sets	215
<i>J.J. Spencer</i> The question of the collapsibility of random 3-regular graphs	253
Author index to volume 230	255
